

BRICKS

Learning Week

9-12 Dec 2017

LEGO® SERIOUS PLAY® (LSP) is a facilitated thinking, communication and problem-solving technique for organisations, teams and individuals. It creates 100% participation through harnessing the magnetic attention of LEGO® bricks.

The Groundbreaking 4-day programs 'BRICKS Learning Week, using the LEGO® SERIOUS PLAY® materials and methodology' will be launched from 9 Dec to 12 Dec. Through all kinds of experiential workshops and seminars, participants would gain insights in using LSP in different professions. We invite you to dive in deeper to explore this fascinating methodology.

Venue

Z505, Block Z, PolyU

Team Building X BRICKS

Date: 9 Dec 2017

Time: 5pm-7pm

With LEGO® models as metaphors, team members are free to share their stories with others which enhance mutual understandings. Through different team building exercises with LSP, which team bonding is strengthened.

Storytelling by using BRICKS

Date: 10 Dec 2017

Time: 2pm-4pm

Storytelling with LEGO® will bring the participants' imagination to life. Participants will use LEGO® to learn about storytelling in a hands-on and expressive way. They can 'build' their imaginary stories.

BRICKS X Special Education Needs

Date: 11 Dec 2017

Time: 7pm-9pm

With LSP methodology, a series of games and activities with clear goal are designed for students with special education needs (SEN), which aims at improving their social skills, temper control and attention span.

Career Builder x BRICKS

Date: 10 Dec 2017

Time: 10am-12nn

Introduce the basic concept of LSP, how to become a professional LSP facilitator and the way to apply it in your professions.

Only BRICKS in Meeting

Date: 11 Dec 2017

Time: 2pm-4pm

LEGO® bricks are replacing paper and pens in meetings. Through LSP, participants play with purpose and think with hands. They can apply their imagination and try-out every possible solution without stress.

'THINK WITH HANDS' by using BRICKS

Date: 12 Dec 2017

Time: 2pm-4pm

The core process of LSP is thinking, building, communication and problem solving. Thoughts and strategies could be built by LEGO® bricks and turned imaginations into visualized models. 'Thinking by doing' also taps into your hidden potentials and inspires new ideas.
